**The Certificates of Origin** are international trade documents certifying the country of origin of the shipped goods, meaning the country in which they were actually produced.

The Certificates of Origin are important for the classification of goods according to the Customs Tariff of the importing country and thus to determine / calculate the amount of owed duties.

### **Issuing ATA Carnets**

ATA is an acronym combining the French and English phrases "Admission Temporaire / Temporary Admission."

**ATA Carnet** is an international document, issued by the 67 affiliated countries, which allows the owner, to temporary (up to one year) import goods without payment of normally applicable duties and taxes, including value-added taxes. The Carnet eliminates the need to purchase temporary import bonds, simplifies border crossing procedures, using a single document and allowing the visitation of several countries during the same trip.

**ATA Carnet** is a passport for the following goods: commercial samples; exhibits for trade fairs, exhibitions, shows, demonstrations and other special promotional events, professional equipment (artistic events, sports, technical).

### **Endorsement certificates for international trade**

The National Chamber may issue, upon request, necessary documents for international trade (invoices, phytosanitary certificates, EUR 1 certificates, export certificates etc.). This service is particularly necessary for international trade documents signed with partners from non-signatory states of the Hague Convention in 1961 on simplifying the legalization of the documents that are to be used abroad.

### **Endorsement attesting Force Majeure circumstances**

The National Chamber is the organization empowered by law to issue endorsement certificates attesting Force Majeure circumstances. # Romania country profile

Romania, in southeast Europe, is mountainous in the north while the main feature in the south is the vast Danube valley. The river forms a delta as it approaches the Black Sea, which is a wildlife reserve for countless native and migratory birds.

The Romanian parliament consists of two chambers, the Senat (Senate), which has 140 members, and the Camera Deputaților (Chamber of Deputies), which has 345 members. The members of both chambers are chosen in elections held every four years.

Ethnically, the population is 90% Romanian and 7% Hungarian. The Romanian language, like a number of others in southern Europe, is directly descended from Latin, although Romania is separated from other Romance-language countries by Slav speakers. Romania has considerable natural resources – oil, natural gas, coal, iron, copper and bauxite. Metal-working, petrochemicals and mechanical engineering are the main industries.

Romanian specialities include grilled meatballs, pork stew with garlic and onions and doughnuts made with cream and cheese.

The spine-chilling tale of Dracula is based on the 15th century Romanian Count Vlad Dracul whose son was famous in wartime for impaling captured enemies. Well-known Romanians include the writer Eugene Ionesco, the gymnast Nadia Comaneci and the composer George Enesco.
